

HMF EXPRESS

Maximum Sizes for Frames and Truck Dimensions

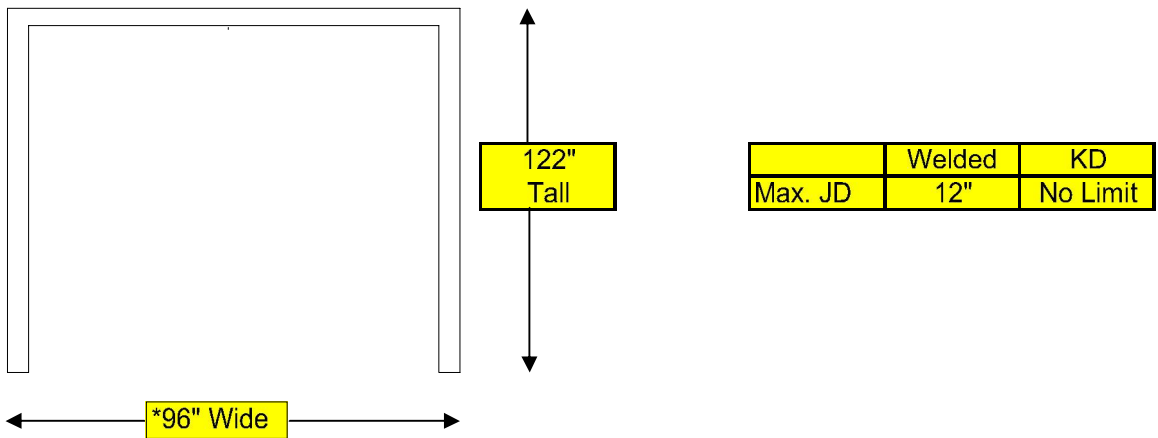

Headloads: Frames (or Doors) must be able to stand up straight (or lie down flat for doors) to ship. We can not ship any items that are leaning on trailer sides at an angle.

Palletized Shipments: Add 5" to height to allow for pallet when determining shipping possibilities. We can not ship any items that are leaning on trailer sides at an angle.

Maximum Powder Coat Sizes for Frames

All Frames will receive 1 coat of Powder Coat Primer in "Battleship Grey" finish noting parameters below.

Important Note: *Frames less than 96" Overall Height can be turned sideways to fit in Powder Coat Booth

Any Frame that will not meet these dimensions will need to receive a paint splice at an additional cost or Must be Hand Painted with air dried primer and will not be of the same finish quality of powder coating.

Welded Frames over 12" Jamb Depth can be welded after Powder Coating at an additional charge.
