Bullet Resistant Doors and Frames

HMF Express is proud to announce our newest product -- a UL-752 (Ballistic) Level 3 hollow metal door and frame. Level 3 openings resist .44 magnum lead semi-wadcutter gas checked 240 grain loads fired at a minimum 1,350 feet per second.

Level 3 Metal Doors and Frames Attributes

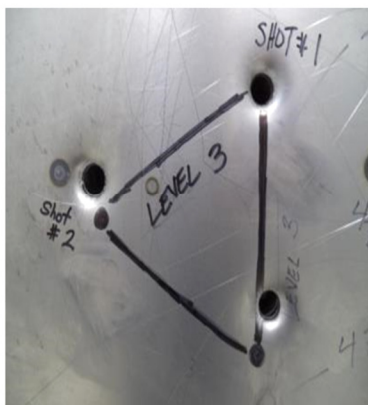

All Level 3 doors have welded seamless edges and are available with door skins of 16, 14 or 12 ga. CRS or A60 galvanealed steel. Our Level 3 metal frames have continuously welded corners and welded wall and floor anchors. These single door frames can be either three or four sided.

Custom Quick Ship Doors and Frames You Can Stand Behind

HMF Express bullet resistant doors and frames are available on all quick ship lead times, in custom sizes, and prepared for bullet resistant cylindrical or mortise locks and hinges. Contact your sales representative for details about this product or for any of your custom quick ship needs.
